

Depart from Kyoto

Roof Gorgolye & Hot Spring 1 Day Tour

Tour Itinerary (09:00 ~ 16:30)

This tour is a behind-the-scenes visit to a **100-year-old onigawara artisan workshop** where craftsmen have continued the ancient hand carved tradition of onigawara roof edge tile creation. **Onigawara** is a combination of the Japanese words for demon and tile and often feature gargoyle and dragon designs. They serve a dual role in warding off evil spirits and protecting the roof edges from the wear and tear of the elements. The artisans at this particular workshop also participate in the restoration of world heritage sites in Kyoto and Shiga. We will also visit a hot spring resort located in **Ogoto Hot Springs** where the alkaline waters are believed to have medicinal benefits. Upon arriving at the hot spring resort we will enjoy **Kaiseki Set lunch** prepared by the Ryokan chefs. After lunch you will have the opportunity to change into a yukata (simple bathing kimono) and experience Japan's unique hot spring culture.

Package Includes:
